

Senior Expert Corps – a Project of Swisscontact

Promoting entrepreneurship through expertise – Imparting technical skills through volunteer work

The retired professionals of our Senior Expert Corps (SEC) are qualified experts on site. Through their consulting services, they provide hands-on, cost-effective support towards sustainable development of companies and institutions.

SEC Assignment in Cambodia, 2018

Assignment No. 3180

Location	Tuk Meas/Kampot province, Cambodia
Client	Cement Factory
Expert	Hans Justitz, Consultant in electrical engineering and automation
Period	03.01. - 02.03.2018

Client Profile

The company belongs mainly to a Cambodian owned industry group and set up by end 2017 its first cement factory in Cambodia. The minority shareholder is an important Thai Cement group contributing the knowhow how to produce cement.

This 5,000 ton per day cement plant contains more than 1'000 machines, is highly automated and is controlled from a central control room.

Tasks

It's the declared intention of the company's management to deploy and get instructed the Cambodian staff within 3 years, in a manner that they will be able to run this plant autonomous without foreign help. In this context SEC was asked to contribute to the instruction of the operators in the central control room.

Results

Establishing a so called Standard Operating Procedure. This document describes how to start-up and to stop the process and how to proceed in case of any failure in the process. Instruction of certain operators. Exchange of ideas with the management how to develop local man power in and around the central control room.
